7. REPORTS FROM COMMITTEES/COUNCILLORS

GB73/19 - Cr Daniel Moloney

Cr Moloney congratulated Cr Taylor, Mayor on his appointment to the position of Mayor on Monday night.

Cr Moloney provided a quick update from the Lake Wendouree and Gardens Advisory Committee meeting where a unanimous vote was made to investigate moving to a 40km per hour speed limit around the entirety of Lake Wendouree. The request came to the Committee from wildlife action groups, running associations and Ballarat and Loreto College.

RESOLUTION:

Request a report to a future Council Meeting investigating options to make the entirety of the road around Lake Wendouree 40km per hour.

Moved: Cr Daniel Moloney  CARRIED
Seconded: Cr Belinda Coates (R270/19)

GB74/19 - Cr Des Hudson

Cr Hudson congratulated Cr Taylor, Mayor on his appointment to the position of Mayor on Monday night.

Cr Hudson noted that he had a discussion with Mr Ron Bedford in relation to the Prime Ministers Avenue at the Botanical Gardens. It was noted that the funds for the Prime Ministers walk have been depleted due to the frequency of which we change Prime Minister. Mr Bedford suggested that if there is a contribution of 40 cents from each rate payer into a fund it would guarantee that the City of Ballarat would have enough money long term to maintain the walk.

Ms Justine Linley, Chief Executive Officer responded that the City of Ballarat already has a provision in the budget for the Prime Ministers avenue, and thanks Mr Bedford for his suggestion.

GB75/19 - Cr Jim Rinaldi

MOTION:

Request a report on the cost savings measures of transitioning from a three-week cycle to a two-week cycle.

Moved: Cr Jim Rinaldi  NO VOTE TAKEN
Seconded: Cr Daniel Moloney

(A report will be prepared for submission to a Councillor Briefing).
GB76/19 - Cr Grant Tillett

Cr Tillett commented on the works at the Wendouree Railway Station stating that it is important that sleepers are used on the line which can be adapted to work for three rail lines in the future. It appears that the sleepers which are ready to be installed are not able to be converted to accommodate an additional rail line.

GB77/19 - Cr Amy Johnson

Cr Johnson congratulated Cr Taylor, Mayor on his appointment to the position of Mayor on Monday night commenting that he has completed great work over the last two days focusing on the Council Plan.

Cr Johnson congratulated Kristy Sellars, the owner of Physipole on winning ‘Australia's Got Talent’ and recommended that the City of Ballarat organise a Civic Reception to recognise Ms Sellars’s achievements.

Cr Johnson reported that she attended the sod turning at the Wendouree Childcare Centre to start the work on the two new maternal and child health rooms and waiting room.

Cr Johnson commented that she has been contacted by many members of the community who are concerned about the Sturt Street bike path. Cr Johnson asked if Council has formed a position on the bike path and requested an update on where the project is at?

Mr Terry Demeo, Director Infrastructure and Environment, responded that Regional Roads Victoria have been through an extensive consultation process. They have agreed to intersection works although there is no confirmed date as yet. It has been suggested that the path will be on the south side of the central median rather than within the central median, however nothing has been confirmed.

Cr Amy Johnson asked when the plans are released if they will be put to Council for Council to form a position?

Mr Demeo, Director Infrastructure and Environment responded that as a delivery partner for the overall Cycling strategy the matter will come through the Chamber. The strategy involves all the infrastructure around Ballarat and Council will be involved in the final decisions.

Cr Mark Harris asked where we are at with the siting of the path and if Regional Roads Victoria will come back with an alternate plan?

Mr Demeo, Director Infrastructure and Environment responded that the intent is to come back and explain the position. Council will have control of the precinct between Grenville Street and Dawson Street, with the other being in the reserve of Regional Roads Victoria.

Cr Ben Taylor, Mayor asked what is the time frame of final consultation being made public?

Mr Demeo, Director Infrastructure and Environment responded that there is no timeline. The discussions which were eluded to were some 4 weeks ago.
GB78/19 - Cr Belinda Coates

Cr Coates acknowledged the Youth Awards and the Senior Awards and the nominees and winners of these awards.

Cr Coates congratulated participants in the China Challenge which is an art competition for primary school students, and the China Committee who organised the event.

Cr Coates acknowledged the community organisers of the Reclaim The Night event which Cr Moloney attended.

Cr Coates requested an update on the time frames around the Burrumbeet Plan and the Planning Scheme Amendment.

Ms Angelique Lush took the question on notice.

GB79/19 - Cr Daniel Moloney

Cr Moloney asked for a quick update on the state of the plans to recycle glass? Cr Moloney noted that the people of Ballarat have done a great job of separating their recycling and dropping glass off at the allocated sites.

Mr Demeo, Director Infrastructure and Environment responded that there has been a significant up take of the glass sites. They have gone from two to three pick ups a week with more skips allocated at each of the sites. Mr Demeo outlined that glass is being aggregated for re-use and trials for use in concrete underway with local contractors.

EXECUTIVE SUMMARY

The Bakery Hill precinct, including the Bridge Mall area, plays an important commercial role within the Ballarat CBD. Historically, it was where mass protests were held, and the Eureka Flag unfurled for the first time in the lead up to the Eureka Stockade of 1854. In recognition of both the significant commercial and historical roles Bakery Hill plays within the Ballarat CBD, the Bakery Hill Urban Renewal Plan has been prepared to address a more recent decline in economic activity within the Precinct.

Through the extensive community consultation processes, there has been a clear and shared concern that the precinct has lost focus and requires revitalisation. Implementation of the Urban Renewal Plan will require a coordinated approach between the private sector and all levels of government to achieve the collective vision of the Urban Renewal Plan. The Plan incorporates short, medium and long-term actions which are designed to create positive change within the Precinct over time.

Council will commence early works and actions immediately upon adoption of this Urban Renewal Plan which will mark the start of a major transformation for the entire precinct. Council has committed $15 million over the next three years to kick-start the short, medium and long-term actions identified in the Urban Renewal Plan. This initial funding will present a significant opportunity for the Precinct and will provide greater confidence in the private sector for medium to longer term investment opportunities.

Director: Angelique Lush
Author/Position: Terry Natt – Principal Planner Strategic Projects

Mr Chris Marshall, Mr Alan Miller, Mr James Dibble, Mr Jeff Rootes and Mr Bob Hartman made public representations.

RESOLUTION:

Council resolves to:

1. Seek authorisation from the Minister for Planning to prepare a Planning Scheme Amendment, pursuant to Section 8A of the Planning and Environment Act 1987, to include a local policy that identifies the Northern and Western Greenfield Investigation Areas as Ballarat’s future greenfield growth areas.

2. Place the Amendment on exhibition pursuant to Section 19 of the Planning and Environment Act 1987.

Moved: Cr Grant Tillett CARRIED
Seconded: Cr Mark Harris (R280/19)

EXECUTIVE SUMMARY

The Ballarat Strategy 2015 identifies three areas for potential greenfield urban development in the medium to long term. The Panel Report on Amendment C194 to the Ballarat Planning Scheme recommended that a further greenfield investigation area be considered in addition to the three areas identified in the Ballarat Strategy. This area, the North Western Growth Investigation Area (also known as the TIGA land), is in Cardigan to the west of Lucas and is shown in the diagram below along with the other Growth Investigation Areas.

The four Greenfield Investigation Areas (GIAs) are identified below in Map 1 and include:

- Western GIA (Adjacent to existing Growth area)
- North West GIA (Ballarat Resort/TIGA - Comprehensive Development Zoned land)
- Northern GIA (North of Freeway/Mt Rowan)
- Eastern GIA (Warrenheip).
Ballarat currently has greenfield supply available. However, this supply is decreasing and will approach the 15-year minimum supply threshold well before 2040 [the planning period for the Ballarat strategy] as the Ballarat West Growth Area is developed.

Council officers and consultants have undertaken multi criteria analysis and feasibility assessments to identify the relative merits of greenfield development in each of the Greenfield Investigation Areas. This has been supported by a peer review of methodology by external consultants.

The order and general methodology of the consultant reports are considered sound and provide a basis for proceeding to the next step of confirming the priority and timing for further planning of Ballarat's growth areas.

When a policy decision is made on the preferred growth area, Council will be required to undertake the next, more detailed stage of planning for delivery of the new growth front, including determining growth area boundaries, precinct and infrastructure planning, consideration of timing for commencement of new growth areas, staging of release of land and the best way to provide infrastructure and associated costs. While it is expected that the final boundary may change in each option, the general location will not.
To meet the desired competition, diversity of housing stock and to provide options for the community, it is appropriate to consider that Ballarat needs more than one residential growth front at any point in time.

Any decision in relation to the most desirable next growth front for Ballarat is an amalgam of cost, ability to service, locational advantages and diversity of housing form within the city. Based on this, the Northern Growth Investigation Area, followed by the Western Growth Investigation Area expansion are recommended as the most cost-effective options that can deliver affordable, well serviced development areas.
10.6. REVIEW OF PLACE NAMING POLICY

Director: Neville Ivey

It is recommended that following the consultation a further report to Council be required.
