6.1 Glossary of Terms

The following glossary explains a number of the key terms used in this PSP. It is intended to assist with reading and understanding of the PSP, rather than provide a legal definition of terms used. Legal definitions for many of these terms can be found in the Ballarat Planning Scheme and/or relevant Ministerial Directions.

Active Open Space: Land set aside for the specific purpose of formal outdoor sports by the community.

Activity Centre: Provide the focus for services, commercial and retail based employment and social interaction. They are where people shop, work, meet, relax and live. They are well-served by public transport, they range in size and intensity of use. In the growth areas, these are referred to as principal activity centres, major activity centres, neighbourhood activity centres and local centres.

Arterial Road: A higher order road providing for moderate to high volumes at relatively high speeds typically used for inter-suburban journeys and linking to freeways, and identified under the Road Management Act 2004. All arterials are managed by the State Government roads authority.

Co-location: Adjoining land uses to enable complementary programs, activities and services and shared use of resources and facilities. For example, the co-location of schools and active open space.

Community Facilities: Infrastructure provided by government or non-government organisations for accommodating a range of community support services, programs and activities. This includes facilities for education and learning (e.g. government and non-government schools, universities, adult learning centres); early years (e.g. preschool, maternal and child health, childcare); health and community services (e.g. hospitals, aged care, doctors, dentists, family and youth services, specialist health services); community (e.g. civic centres, libraries, neighbourhood houses); arts and culture (e.g. galleries, museums, performance space); sport, recreation and leisure (e.g. swimming pools); justice (e.g. law courts); voluntary and faith (e.g. places of worship) and emergency services (e.g. police, fire and ambulance stations).

Conventional Density Housing: Housing with an average density of 10 to 15 dwellings per net developable hectare.

Development Contributions Plan: Document that sets out the contributions expected from each individual landowner to fund infrastructure and services. Refer to Part 3B of the Planning and Environment Act 1987.

District Park: An area of open space that incorporates a large area for active recreation such as field sports.

Early Years Hub: Located within or alongside other community or education facilities. Early Years Hubs provide early years services such as maternal and child health, kindergarten and childcare.

Encumbered Land: Land that is constrained for development purposes; including land to be set aside for easements for power/transmission lines, sewers, gas, waterways/ drainage; retarding basins/wetlands; landfill; conservation and heritage areas. This land is not provided as a credit against public open space requirements.

Frontage: The road alignment at the front of a lot. If a lot abuts two or more roads, the one to which the building or proposed building faces.

Gross Developable Area: Total precinct area excluding encumbered land, arterial roads and other roads with four or more lanes.

Housing Density (Net): The number of houses divided by net developable area.

Linear Open Space Network: Corridors of open space, mainly along waterways that link together, forming a network.

Land Budget Table: A table setting out the total precinct area, net developable area and constituent land uses proposed within the precinct.

Local Activity Centre: An activity centre smaller than a neighbourhood activity centre with a catchment radius of about 400 metres and may include a small supermarket or convenience store of 500 square metres to 1,500 square metres.

Lower Density Housing: Housing with an average density of less than 10 dwellings per hectare.

Major Activity Centre: An activity centre that has similar characteristics to a Principal Activity Centre but serves a smaller catchment areas and is complementary to the Principal Activity Centre.

Main Street: A function of an activity centre, where vitality and activity are created by orienting uses towards the street, and ensuring that the primary address of all retail stores is the street. This would normally not be a high-traffic street.

Medium Density Housing: Housing with an average density of 16 to 30 dwellings per net developable hectare.

Multi-purpose Community centre: Centres providing multiple spaces clustered together on one site servicing the neighbourhood / district / sub-region / region. They may include some or all of features such as libraries, hall or performance space, meeting spaces, kindergarten, family support, maternal and child health, senior citizen, youth or cultural clubs, outreach support services, consulting services, community garden, customer service, IT facilities, before or after school classes.

Native Vegetation: Plants that are indigenous to Victoria, including trees, shrubs, herbs, and grasses.

Native Vegetation Precinct Plan: A plan relating to native vegetation within a defined area that forms part of the precinct structure plan. Native vegetation precinct plans are incorporated into local planning schemes and listed in the schedule to Clause 52.16.

Neighbourhood Activity Centre: Activity centres that are an important community focal point and have a mix of uses to meet local needs. Accessible to a viable user population by walking, cycling and by local bus services and public transport links to one or more principal or major activity centres.

Net Developable Area: Total amount of land within the precinct that is made available for development of housing and employment buildings, including lots, local and connector streets. Total precinct area minus community facilities, schools and educational facilities and open space, arterial roads and encumbered land. Small local parks defined at subdivision stage are included in net developable area. Net Developable Area may be expressed in terms of hectare units (i.e. Net Developable Hectare (“NDHa”)).

Net Residential Area: As per Net Developable Area but excludes neighbourhood activity centres, non-government schools and other existing or permitted non-residential land uses (e.g. golf course sites). Net Residential Area may be expressed in terms of hectare units (i.e. Net Residential Hectare (“NRHa”)).

Passive Open Space: Open space that is set aside for parks, gardens, linear corridors, conservation bushlands, nature reserves, public squares and community gardens that are made available for passive recreation, play and unstructured physical activity including walking, cycling, hiking, revitalisation, contemplation and enjoying nature.

Precinct: An area of land within the Urban Growth Zone for which a precinct structure plan is to be produced. Their extent will be determined based on a need to create reasonably self-contained communities and on an understanding of the strategic level land use and topographical features. They will normally be between 200 hectares and 2000 hectares, but larger or smaller precincts may be defined in specific circumstances.

Precinct Infrastructure Plan: Section within the precinct structure plan that defines the priority regional and local infrastructure requirements for future planning and investment by council and government agencies.

Precinct Structure Plan: A statutory document that describes how a precinct or series of sites within a growth area will be developed over time. A precinct structure plan sets out the broad environmental, social and economic parameters for the use and development of land within the precinct.

Principal Activity Centre: Activity centres that accommodate a mix of activities that generate higher numbers of trips, including business, retail, services and entertainment. Generally well served by multiple public transport routes. Has a very large catchment covering several suburbs and attract activities that meet metropolitan needs.

Public Open Space: Land that is set aside in the precinct structure plan for public recreation; or as parklands; or for similar purposes. Incorporates active and passive open space.

Shared or Joint Use: When councils, schools and community service organisations come together to plan, build and in some cases jointly manage a single facility to be used by multiple service providers. E.g. Using a school as a facility for wider community utilisation.

Small Lot Housing Code: Planning and Design Guidelines setting out the requirements for building envelopes on plans of subdivision on lots with an area less than 300 square metres.

Urban Growth Zone: Statutory zone that applies to land that has been identified for future urban development. The UGZ has four purposes: (1) to manage transition of non-urban land into urban land; (2) to encourage development of well-planned and well-serviced new urban communities in accordance with an overall plan; (3) to reduce the number of development approvals needed in areas where an agreed plan is in place; and (4) to safeguard non-urban land from use and development that could prejudice its future urban development.

Water Sensitive Urban Design: A sustainable water management approach that aims to provide water-quality treatment, flood management to reduce the pollution carried to our waterways and more sustainable urban landscapes. Key principles include minimising water resistant areas; recharging natural groundwater aquifers (where appropriate) by increasing the amount of rain absorbed into the ground; encouraging onsite reuse of rain; encouraging onsite treatment to improve water quality and remove pollution, and using temporary rainfall storage (retarding basins/ wetlands) to reduce the load on drains and improve landscape viability.

Wathaurang: Traditional land owners. Also known as the Wadda Wurrung people.

Part 1 – Single Class 1a Building and Associated Class 10a Buildings

1. Maximum street setback

1. The front wall of a new Class 1a building must not be set back from the front street alignment more than the street setback specified in Table 2 plus 1.5m.

2. Minimum street setbacks

1. The front and side walls of a building must be set back from front and side streets not less than the distance specified in Table 2;

Table 2: Street Setbacks

Designation of the allotment in the subdivision permit	Minimum setback from front street	Minimum setback from a side street
Type A	<p>4m for a building facing a declared road and no less than 25% of the area of the front façade of a building must be setback a minimum additional 300mm</p> <p>1.5m for a building facing a street that is adjoined by a recreation reserve and no less than 25% of the area of the front façade of a building must be setback a minimum additional 300mm</p> <p>3m in any other case and no less than 25% of the area of the front façade of a building must be setback a minimum additional 300mm</p>	1.5m and if a wall is more than 10m in length, for each 10m length of wall no less than 10% of the area of the wall must be set back a minimum additional 300mm
Type B	<p>4m for a building for a declared road and no less than 25% of the area of the front façade of a building must be setback a minimum additional 300mm</p> <p>1.5m and no less than 25% of the area of the front façade of a building must be setback a minimum additional 300mm</p>	1m and if the wall is more than 10m in length, for each 10m length of wall no less than 10% of the area of the wall must be set back a minimum additional 300mm
