
ACTIVE 2 SCHOOL

Encourage healthier, more active students and families. Make streets safer and improve student safety skills and awareness.

Active 2 School will help by:

- > Encouraging active options like walking and cycling to and from your school.
- > Improving road safety around your school.
- > Create and promote safe routes to and from school.

How does the Active 2 School program work?

The City of Ballarat and partner agencies will support your school by:

- > Identifying barriers and co-designing solutions towards active travel options
- > Creating maps with active travel routes and park and walk options.
- > Offering road safety sessions, bike education sessions and bicycle maintenance workshops.
- > Support to create Active 2 School as an ongoing program at your school.

The Active 2 School program can help your school:

- > Increase physical activity levels, reduce sedentary behaviour, and support good mental health for your students
- > Reduce traffic congestion and increase safe roads around your school
- > Improve road safety skills and independence for students
- > Links to existing school curriculum and programs

To find out more and bring this fun and creative program to your school contact info@ballarat.vic.gov.au
